

# StovePlus

Coaching project developers  
on cooking energy solutions

**Enhancing Capacities**

**Engaging Stakeholders**

**Enabling Access**

**StovePlus** is a global initiative of GERES that facilitates access to improved cooking solutions for populations relying on biomass. We provide technical support to project developers a round the world.

Building on **15 years of experience** on large scale dissemination and adoption of Improved Cookstove (ICS) projects in Southeast Asia and West Africa, our experts are **leaders** in the sector both on the field and in the global arena.

**GERES: Development engineers since 1976**

Around the world, GERES develops **energy-efficient solutions** designed to preserve the environment and improve the living conditions of populations.

GERES implements ICS programs in Cambodia, Mali & Benin. Over **2.5 million stoves** have been disseminated in Cambodia thanks to a large-scale project involving the local private sector.

More information at [www.geres.eu](http://www.geres.eu)

**Our support services**

Understand the local context and ICS sector

**Baseline Assessment**

Enhance testing capacities and stove design

**Testing and R&D**

Integrate ICS standards and labelling schemes

**Standards and Labelling**

Assure high quality stove production processes

**Quality Assurance and Control**

Explore opportunities for carbon financing

**Carbon Finance**

Ensure a sustainable market based approach

**Business Development**

Determine social, economic and environmental impacts

**Impact Evaluation**

Implement stove tracking procedures and tools

**Monitoring Systems**

**Looking for support to initiate, improve or scale up your Improved Cookstove project?**

Whether you are a local entrepreneur or a development institution...

*...StovePlus can coach you on the road to success!*

**A holistic approach**

Through a 4 step process, we provide holistic, comprehensive and long lasting support.

- 1 Project Assessment and Diagnosis
- 2 Development of Support Strategy
- 3 Implementation of Recommendations
- 4 Follow up and Backstopping

**geres**

**A team of experts you can trust**

- ☛ We are ICS developers who understand the major challenges and needs
- ☛ We have 15 years experience and have disseminated over 2.5 million units
- ☛ We have experience working on the field and at the international level
- ☛ Our G-BEL biomass lab is recognized by the Global Alliance for Clean Cookstoves

**Julien Jacquot**  
Program Manager

**Nodira Akhmedkhodjaeva**  
Regional Director, Southeast Asia

**Anne Calvel**  
Regional Director, West Africa

**Yohanes Iwan Baskoro**  
Technical Director
